IB PYP

A Future Of
Limitless
Possibilities!

FOR EVERY CHILD, THE EARLY YEARS ARE LIKE PIECES OF THE TANGRAM

Early years development means changes in your child's physical growth, but it also includes changes in your child's social, emotional, behaviour, thinking and communication skills.

In the first five years of life, children's brains develop connections faster than at any other time in their lives.

This is the time when founding blocks for learning, health and behaviour throughout life are laid down.

“Johnson Grammar School invites you to collaborate with us to construct a meaningful design for your child's life, just like the pieces of the Tangram, by recognising their faculties and envisioning future possibilities through the PYP curriculum.
